

Call for Reviewers

AIS SIGED ICISER 2023

For the upcoming AIS SIGED ICISER 2023 conference, we need reviewers who are well-versed in the field of Information Systems and have experience using technology in teaching. If you are an academic with expertise in these areas and can critically review papers, we invite you to email our Research Director, Tania Prinsloo (tania.prinsloo@up.ac.za), expressing your interest in becoming a reviewer for the conference.

Please include any relevant qualifications or experience in your email, and feel free to state any question or remark you may have about the reviewer's role. Thank you for considering this opportunity to contribute to the conference's success.
